ESTABLISHED TECHNOLOGICAL INITIATIVES

AI-Powered Revenue Platform

- **Combines Incentives + CPQ + Planning into one intelligent system**
- **Uses AI to guide pricing, deal configuration, and incentives.**

End-to-End Commission Automation

- **Automates entire process: calculation → validation → payout**
- **Eliminates errors like overpayment/underpayment.**

No-Code Plan Builder & Scenario Simulation

- **Allows teams to design commission plans without coding**
- **“Time Machine” feature to simulate outcomes.**

Real-Time Visibility & Transparency

- **Sales reps can track earnings and performance instantly**
- **Provides crystal-clear forecasting and payout visibility.**

Advanced Data Integration System

- **Integrates with CRM, ERP, HRIS systems**
- **Handles millions of records and large-scale enterprise data.**

AI-Driven Dealrooms & CPQ

- **Interactive dealrooms for buyers and sellers**
- **AI suggests pricing, configurations, and deal structures.**

GAP ANALYSIS

Area	Current State	Gap Identified	Recommendation
AI Capabilities	AI used in pricing & forecasting	Limited autonomous AI decision-making	Develop advanced AI agents for predictive strategy
Market Presence	Strong in SaaS & enterprises	Limited brand visibility globally	Expand global marketing & partnerships
Product Expansion	Focus on commissions & CPQ	Limited adjacent offerings	Expand into full revenue intelligence suite
Customization	No-code flexibility available	Industry-specific solutions limited	Build vertical-specific modules
User Experience	Functional and data-rich UI	Can be complex for new users	Improve UI simplicity & onboarding
Integration Ecosystem	Strong CRM integrations	Limited niche integrations	Expand API marketplace

INSTITUTE TIE UPS

Tier	Colleges	Hiring Pattern
Tier 1	IIT Madras, NIT Trichy	Limited / lateral hiring (top roles)
Tier 2	SSN, PSG College of Technology, TCE, CIT, VIT, Amrita	Core hiring (engineering, product, analytics roles)
Tier 3	SRM ,Rajalakshmi Engineering College, Panimalar	Volume hiring (entry-level roles)

Industry Category

Primary Industry

- SaaS (Software as a Service)

Sub-Industry

- Sales Performance Management (SPM)
- Incentive Compensation Management (ICM)

Tools builded

- Incentive Compensation Management (ICM)
- CRM & Data Integration
- Reporting & Analytics Engine
- Workflow Automation & Plan Builder
- Commission Visibility Portal (Rep View)

BUSINESS & PRODUCT MIX

Everstage offers a subscription-based pricing model with multiple tiers based on the number of users and features required. Pricing is typically customized according to organization needs and includes core functionalities with options for additional modules.

BUSINESS & PRODUCT MIX

CLIENT UNDERSTANDING

Client profile & industry mix

Customer numbers now exceed 300, with businesses spread across industries including manufacturing, financial services, and pharmaceuticals, as well as the technology vertical in which Everstage started out.

Who buys Everstage? The platform primarily serves three buyer personas within companies:

Revenue Operations / Sales Ops teams — who build and manage commission plans

Finance teams — who need accuracy, audit trails, and compliance

Sales reps & managers — who want real-time visibility into earnings and quota progress

CLIENT UNDERSTANDING

Key value propositions by buyer

Buyer	Pain Solved
Sales Ops / RevOps	No-code plan builder, fast go-live, complex plan automation
Finance	Accurate payouts, audit trail, SOX-ready compliance
Sales reps	Real-time earnings visibility, gamification, no disputes
Sales managers	Team performance dashboards, quota tracking, coaching data
